

## Flooded with Job Applications?

Job applications rose by **32% in June** and **38% in July** and the trend is certainly moving higher as more and more candidates, adversely affected by Covid and the furlough, actively look for **any** position, irrespective of their qualifications.

Application rates are an unbelievable **106%** higher today than at this time last year BUT are you in a position to handle this volume?

### Career Kinetics is here to help...
